EMERGENCY APPROVAL OF RESOLUTION:

2010-202 declaring the need for an emergency meeting pursuant to N.J.S.A. 10:4-9(b) and authorizing action by the Borough with regard to emergency conditions resulting from a transformer pole bursting

The Mayor stated that we were here to approve an emergency resolution due to an emergency situation that will give the Administrator approval to award a contract for an emergent situation.

Councilman Lamb questioned how it got this big.

Mayor LaCicero stated that unfortunately some of our transformers were thirty years old and they contained some hazardous chemicals in them that had PCB's.

Councilman Horan stated that the Electric Department is in the process of surveying all of our transformers to see which ones are our old ones and should be replaced to prevent this situation from happening again.

Councilman Lamb stated that he does not understand why the Fire Department was not contacted.

Mayor LaCicero stated that he believes that there should have been a certain protocol with this that was not followed properly with the electric department and the police department and those departments will be spoken too.

Mayor stated first we need to approve this resolution to get the cleanup started and then we will deal with the rest of it soon.
