Lavallette Emergency Notification System:

The notification system allows our officials to record a message and send that message to every telephone number listed in the directory within a matter of minutes. Whether residents need to be informed of a water main break, a fast-moving fire, approaching storms, or other crisis, the notification system is the most efficient way to reach them with the news.

The Emergency Notification System will send messages to a database of telephone numbers and email addresses.

The Borough of Lavallette strongly encourages residents to visit our website at www.lavallette.org, and register your land line and cell phone numbers and email addresses to receive emergency messages on additional devices from The Borough of Lavallette.
